

Product expectation sheet

Betaine (Trimethylglycine)

Description

Betaine powder (min 90% pure) is extracted from beet molasses using Greencoverly® patented separation technology. It is a circular ingredient with a low carbon footprint, to be produced in the Netherlands.

Application

- food supplement
- sports nutrition

Chemical specifications

Parameter	Value
Purity	>90 %
Sodium	<2%
Potassium	<2%
Proteinogenic material	<1%
Sugars	<1%
Sulfate	<200 ppm
Bromide	<100 ppm
Phosphate	<100 ppm
Calcium	<100 ppm
Magnesium	<50 ppm

Microbial specifications

No micro-organisms are expected to be present in the final product.

Heavy metal specifications

Parameter	Value
Iron	<50 ppm
Manganese	<50 ppm
Copper	<5 ppm
Nickel	<5 ppm
Zinc	<5 ppm
Lead	<2 ppm
Cobalt	<1 ppm

Ingredients / labeling

Betaine

Country of origin

Netherlands

Possibilities

If you would like a different variant of this ingredient (flavor, color, odor, purity, etc...), please contact us.
